Trekkin' into 2017

Has 2016 already come to a close? Another year in the books and what a year it was! Everyone at Trek has been working hard to bring you an even better 2017. This year we are introducing several new destinations and a new website that will create a platform to provide our clients with current information on hunting reports, blogs and pertinent information for the program you choose to visit. All in all 2017 is destined to be a great year.

With commercial flights establishing service to Havana Cuba this past November, Trek has been on the forefront in creating a wonderful tour only package with three and four night options. You will travel under the General OFAC License participating in a People-to-People exchange making this a 100% legal trip to a destination that only a few years ago, we dreamed of visiting. We have set up guided tours around Havana to see the Old Town charm in the back seat of a 50's classic car, a tour to an authentic tobacco farm and factory where the famous Cuban cigars are born, a visit to Hemmingway's old residence Finca Vigia and plenty of interaction with Havana's lovely people. Now is the time to visit Havana! Flip to page 39 and read more on Trek's Havana Tour option.

Trek owners, Milton & Cara Hanburry, just returned from a trip to Argentina's picturesque Patagonia region where they spent time at Patagonia River Ranch (PRR) just outside San Martin de los Andes. For those of you who have had the pleasure of visiting Guayasbate Lodge in Cordoba, well, PRR is the Guayasbate of Patagonia fly-fishing! From the insane fishing to excellent hostesses and the endless activities for non-fisherman, we are excited to introduce PRR as a new Trek destination. See page 34 for more information on PRR and feel free to call Milton for a detailed report.

Decoying Pigeons continue to consume the mind of those lucky enough to have shot them before in South America. It's because of this that Trek has made a promise to the traveling wingshooter in visiting up and coming pigeon destinations and enlisting them in our assortment of programs. This past October, Trek VP Joe Patterson hopped down to Bolivia for a visit to Pigeon Palace owned & operated by Mozo Vidal, a long time study of Herland Von Sneidern. More and more pigeons have migrated to this area of the Santa Cruz province and we are happy to offer shooters yet another excellent opportunity to challenge their skill against decoying pigeons. Find out more details about Pigeon Palace on page 8.

Lastly, we would like you to visit Trek's new website (www.treksafaris.com) with an all-new design, more information on Trek destinations, redesigned blog and tons of excellent photos. We will use this new site as a tool to keep everyone up to date on happenings in the travel world including field reports, current specials, travel news and an easier way for our travellers to find more information on their specific trip & destination.

Trek Tracks

As we are putting to bed 2016 and going warp speed into 2017, it occurred to me how much the world has changed, especially our world where adventurers and sporting addicts get their “highs” traveling abroad.

Case in point is Cuba, a place where the majority of Americans have never been and unless the embargo is lifted some may still stay away. Today however it's as easy to enter Cuba as it has ever been and the baby boomers are leading the way. Starting this past December 1st, eight U.S. airlines started commercial flights into Havana from major departure points like JFK, Newark, LAX, Atlanta, Miami, Houston, Charlotte, Orlando, Ft. Lauderdale, and Tampa. These carriers and their connections make it possible for anyone living in the U.S. to depart from their hometown and make Havana in time to have a happy-hour rum daiquiri next to Hemingway's statue at the Floridita bar. Well now, that's real progress!

Who would have thought that in the year 2017 the number of Americans visiting Cuba legally would number in the hundreds of thousands? It took us quite a bit of research and some good fortune to have been on the ground floor of much of this new legal business, both on the fishing and touring side. I know many of you are not quite sure what to think about visiting Cuba now that Fidel has passed and Trump is our President, but in my opinion both of us have too much invested in each other to turn back now.

Cuba needs our tourist dollars desperately and I don't see that changing anytime soon and, apparently our government has seen as I have that there have been some pretty radical changes in Cuba lately, all of them favorable to the overall populace. Internet, cellular service and a semi-embrace of some capitalistic ideas relating to infrastructure are all benefitting the tourism sector and trickling down to those colorful ladies posing with giant Cohiba's in their mouths. Cruise lines, hotel chains, and telecom companies to name a few are all-in on Cuba and more deals to be announced. Once big business moves in it will be hard to turn that away.

And what of the situation in San Fernando, Mexico where as of 2011 there were virtually no hunting lodges open for business and few local citizens ventured outside their houses for fear of violence from the drug cartel. This is an area that prior to 2009 there were as many as 26 lodges operating along the Laguna Madre Lagoon system taking thousands of hunters from the U.S. and all of them were doing great business.

Two years ago Trek received word that the Federal Military police were patrolling San Fernando and pushing out the cartel and the corrupted local police. Citizens started to venture out again and normal commerce returned with few incidences. In 2015 operator Steve McCain invited Trek VP Joe Patterson down to La Finca Lodge to see firsthand how the local situation had improved and to look into the possibility of operating a few hunts later in the year. Joe and I discussed the matter and agreed that he would personally host a few groups so that our clients would see that we were invested in the program, albeit on a limited scale. Well those few groups witnessed some of the best duck, dove and quail shooting this area had seen in years and all of them re-booked for 2016 where we again hosted two more groups who again experienced superb hunting. Imagine hundreds of square miles of prime waterfowl and upland habitat all to yourselves and that is currently the situation now. After word has spread that hunters are enjoying excellent shooting from La Finca Lodge with no issues whatsoever amid the presence of heavy military police, it is no wonder that La Finca's entire mixed bagged calendar for the rest of the year and into 2018 is almost completely filled.

Aside from La Finca we are hearing that several other lodges that were closed may consider opening next year and that is good news for U.S. Sportsmen. No one knows for sure how long this situation will remain fluid and we can certainly understand those who are still apprehensive. For our part we can only report what our experiences are and so far they have been overwhelmingly positive. So much so that McCain has the ear of the governor of Tamaulipas who is a young rising

candidate promising to do all in his power to keep San Fernando safe and prosperous for hunters to return year after year.

And finally there was news late in November that the government of Colombia had agreed to stop pursuing the FARC rebel group and to try and get them introduced into society as well as a place in the government. The FARC's are a leftist rebel group responsible for much violence and government discord for the last 50- plus years. A few Trek clients were introduced to some of the FARC's on the Orinoco River and were requested to donate food, rum, and money to their campaign, however they became more aggressive by the late 80's along with the drug cartel and ushered out what was a very fruitful dove hunting and fishing destination for Trek and others.

Colombia is one of the most beautiful countries that I have ever visited and while the city of Cartagena has really seen a resurgence the last few years, I fully expect the rest of the country will soon be on the list of many tourist and sportsmen in the coming new year. Longtime Trek outfitter Erik von Sneidern is looking into a basic peacock bass camp near the Inirida River in eastern Colombia that he says is the better than any peacock bass trip currently operating. We are working with Erik on logistics for the trip and hope to have a promotion to you next year. Be looking for more exciting news coming from Colombia in the coming months. Happy Holidays to you all!!

WING SHOOTING

Trek photography contributor, Gary Kramer, recently captured a hunter taking aim on a flock of Red Head ducks decoying into a spread on the Laguna Madre near San Fernando Mexico. The duck and quail combo hunt at La Finca Lodge is fast becoming one of Trek client's most popular wingshooting destinations. See more on La Finca's hunting options on pages 20 and 21.

Come Experience Bolivia's Newest, Most Luxurious Lodge, Los Guadales

Los Guadales is now recognized as one of the premier lodges in all of South America and with long time Trek partner Jorge Molina, his family and staff at the helm, it is sure to be smooth sailing into the 2017 season. As a treat, in addition to the tremendous dove shooting, Jorge is now throwing in a mornings pigeon shoot. The 2016 season recently wrapped up and the numbers were fantastic on both dove and pigeon. We have already filled many early season slots for the upcoming season, so call today to reserve your spots as they are sure go fast.

The grande Los Guadales Lodge is the brainchild of long time Trek partner Jorge Molina. For nearly two decades, Jorge owned and operated the famous Las Palomas Lodge and during that time has been formulating in his mind the perfect lodge, one that would combine the hands on, personalized customer service he's famous for and the ultimate in deluxe amenities. Well, Los Guadales, which officially opened its doors less than 2 years ago, is the culmination of this dream. With daily flights out of Miami on American Airlines, Bolivia has become one of Treks most popular wing shooting destinations. Add to that the tremendous number of dove migrating annually into this massive farming region and the comparatively short flight times into Santa Cruz, and it is no wonder that every year the number of Trek shooters planning a Bolivia trip increases. Like our other Bolivia programs, we will be offering a 3 and a 4 shooting day program.

The Trip: Although airfare is not included, the best way to get to Bolivia is on American Airlines, offering daily flights to Santa Cruz, out of Miami. Currently the itinerary is for an overnight flight to Santa Cruz, via La Paz, Bolivia. When you arrive into Santa Cruz, you will be met by a member of Jorge's staff who'll assist you through customs and then provide the 90 minute ground

transfer to Los Guadales. After lunch and getting settled in, your group will have time to relax before you head out to shoot late this afternoon. The next two, or three days will be full shooting days, with one of the morning shoot being a bonus pigeon shoot. As the drives to the fields are relatively short, we will return to the lodge in the midday for a relaxing lunch and siesta before shooting the late afternoon flight. The last lodge day you will shoot the morning, before having lunch and being transferred back to Santa Cruz where you will spend this final night. The last morning, you will be met at the hotel and be transferred to the airport for your morning departure, arriving back into Miami in the late afternoon.

Trip fee: \$ 2,650.00 per shooter for the 3 shooting day adventure and \$ 3,460.00 per person for the 4 shooting day trip. Trip fee's exclude airfare, gun entry fee's and last night in Santa Cruz, but are to include airport greeting, in country transfers, all shooting, all lodge accommodations with meals and full open bar at Los Guadales. New Destination

Pigeons... Pigeons... Pigeons...

Trek Safaris continues to provide hunters with new destinations year after year and for 2017, we bring you Pigeon Palace in Bolivia... High-volume decoying pigeons... Need we say more?

Each year more and more traveling wingshooters are searching for the opportunity to shoot high-volume decoying pigeons. The Chaco region of Bolivia has literally become a haven for pigeons and we now offer a pigeon only hunt for these sought after birds.

The Trip: Your trip starts with an overnight flight from Miami on American Airlines to Santa Cruz Bolivia arriving the following morning where outfitter Mozo Vidal will be on hand to greet you and help clear your guns. After clearing immigrations and customs, you'll transfer about 3 hours to Pigeon Palace, get settled and start your hunting this afternoon. The next three

days are morning and afternoon pigeon hunts. The final morning you have one last hunt then you'll transfer back to Santa Cruz, overnight and catch the day flight back on American Airlines to Miami arriving this afternoon. In total, this will be 7 days of travel and hunting. Bolivia is a very hunter friendly country allowing you to easily bring your own shotgun. As always, Trek Safaris will be happy to help with your airfare.

The Hunting: If the words "decoying pigeons" are brought up to a group of traveling wingshooter, they will likely ask where and when. It's because of the immense popularity this type of hunting has taken on that Trek is happy to move forward

with an all-new program for the 2017 season. Pigeon Palace Lodge is located in the middle of the Bolivian pigeon migration and from April through September, you can experience this pigeon madness. For three full and two half days, we will shoot over sorghum, corn and sunflower fields near Mennonite farming colonies using decoy spreads and spinning

The Accommodations: Located near the town of San Jose de Chiquitos in the Santa Cruz Province of Bolivia, Pigeon Palace is a spacious 5-bedroom lodge all having en suite bathrooms, A/C and maximum capacity for 10 hunters doubling in the rooms. There is a large great room with bar, fireplace, dining area and several comfortable seating corners allowing guys to stretch out and enjoy themselves. During the hot days of the season, hunters can enjoy the swimming pool at the center of the grounds. Mozo's wife Vicky is responsible for the kitchen preparing typical Bolivian meals of pork, beef, pasta and deserts. Having only 5 years of age, the lodge has matured nicely and all in all, I was impressed with Pigeon Palace.

Never has traveling with your significant other been more fun! As always Trek has taken great care in offering a trip that hits all the high spots and includes much of the cost.

Buenos Aires- A trip to Argentina is not complete unless you spend some time in the “city that never sleeps”. Our itinerary calls for two days in B.A. using the iconic Alvear Palace as headquarters. We have arranged for a city tour including sights such as the Plaza de Mayo in the historic heart of Buenos Aires and surrounded by some of the oldest and most important buildings; the Casa Rosada (Pink House), where the government’s executive branch is housed, the historical Cabildo and the Metropolitan Cathedral, where lies the remains of General José de San Martín. Dinner this evening will be at Sotto Voce. A separate guided tour of the famous Opera House will also take place followed by lunch and shopping excursion in the upscale district of Recoleta as well as a visit to Eva Peron’s gravesite. Our final evening takes in a wonderful Tango Show and dinner at Rojo Tango located in the popular Puerto Madero Waterfront District.

Cordoba’s Guayascate Lodge- Guayascate Lodge is not just any hunting lodge; it’s more of a small resort and so well thought of that Beretta gave it the only 3-Trident rating in South America. Our four nights here will include three full days shooting for eared dove in the Piquillin trees that surround the property near the small town of its namesake. It is doubtful you will ever see more dove in the sky than what is offered on this trip. Don’t like to hunt... no problem as Guayascate oozes relaxation. Order a massage, soak in the indoor-outdoor Jacuzzi, enjoy a facial and pedicure, or just pick a quiet spot among

the 19,000 square feet and read your favorite book. The wine cellar is a great place to take in appetizers, your favorite Malbec and doubles as a cigar room after hours. Scrumptious gourmet meals are carefully planned by Chef Daniel Quivan and accompanied by fine wines.

Mendoza- Our final stay will be the high desert mountain town of Mendoza where we have three nights and days of fun packed activities. Accommodations will be at the wonderful Park Hyatt overlooking the majestic Aconcagua Mountains that are second highest in the world. Our first full day in Mendoza will be a guided trip into the nearby area of Lujan de Cuyo to visit some wineries of one of the most important wine regions in Mendoza including the famous Catena Zapata Vineyard and the splendid Benegas Winery for wine tours and special tastings. We will enjoy a 5 course wine-paired lunch at Largarde Winery consisting of delicious courses with gran reserve & icon wines. The second full day is saved for a unique cooking class at Finca Agostino Winery. The class begins at the winery’s organic vegetable garden, where the raw materials are harvested. The class also includes the elaboration of bread, empanadas and other typical Argentinean dishes followed by enjoying all of this with a private meal. Our last day is reserved for you and your partner to walk

the city and shop or just soak in the culture. Each evening we will enjoy unique restaurants in the city of Mendoza and sipping into the night.

Argentina - Cordoba Dove

30°55'27.06" S 64°11'00.81" W

Better & Better Each Year!

Trek Safaris and H&H Outfitters have created the most recognized brand for dove hunting in Cordoba Argentina. It's this brand that brings together the most birds, finest lodges and the best-organized hunts available all in one program. We will continue to strive to be the leader in Cordoba year after year allowing wingshooters to enjoy the entire experience.

The Trip: Choose between either a three full & two half-day or the shorter two full & two half-day high volume shooting option. Your trip begins on an overnight flight from the States arriving into Cordoba the following day. Upon your arrival into Cordoba, the staff of H&H outfitters will greet you after clearing customs and transfer you to your corresponding lodge. After introductions and lunch we will head out for an afternoon hunt shooting until dusk when you return to lodge for a hot shower, optional massage and sundowner before dinner. Following will be two or three full shooting days only stopping to enjoy an Asado in the field each day. On the last day, you will have one last morning hunt before saying your goodbyes and transferring back to Cordoba for your afternoon flight that will connect you to an overnight flight home to the States.

The Shooting: Cordoba is the dove capital of the world estimating the dove population to be in the neighborhood of 32 million birds. With huge tracts of agriculture and few known predators, the dove population has exploded and continues to do so. The South American eared dove is similar in size and appearance to the North America mourning dove except the eared dove has a shorter tail. But the chief difference between the two is the eared dove pattern of flying the entire day, which allows us to hunt all day even in inclement weather. This is a shotgunner's dream and is not uncommon

to shoot 3-4 cases of shells per day and more. A typical hunting day starts with wake up call around 7:00am. After a full breakfast, we will load into the vans for the 30-60 minute drive to the field. Your pick-up boy will meet you in the pre-scouted field with plenty of shells and cooler of cold drinks. Shooting should be steady until lunch where a full Asado is served consisting of local cuts of beef, chicken and pork, accompanied by excellent salads, fresh bread and fine wines. After lunch we will continue to shoot until late afternoon when the sun starts to set and then make our way back to the lodge for cocktails and appetizers followed by a full dinner and wines.

The Accommodations: Trek has exclusive rights for three newly renovated, deluxe lodges each having their own distinctive characteristics, design and location. The one thing all of our lodges have in common is that they offer the very best staffing, service, equipment and cuisine available in Argentina. Trek and H&H will continue to feature the La Portenita and Sierra Verde Lodge along with the ever popular Rio Seco Lodge. Please inquire about a brochure and individual listing for each lodge.

*TRIP FEE: 3 day hunt \$2100.00 per person...

It's Not Just About the Birds

Since opening its doors in 2010, Guayasbate lodge has captured the attention of the traveling wingshooter looking for something more than just a hunting lodge. This is a lodge that has lived up to the excitement and far exceeded the expectations and now is the time for you to enjoy it.

Thousands of traveling sportsmen visit Argentina every year and why not, it's safe, beautiful and offers the best wingshooting destinations in the world. For those who love their dove shooting, the Cordoba Province is the crème de la crème of dove shooting as verified by hundreds of publications. It is here in the northern woods of Cordoba where Guayasbate is located.

The Outfitter: The outfitter for Guayasbate are brothers Alex and Zeke Hayes forming the reputable H&H Outfitters who along with Trek has offered the best dove shooting trips in Cordoba for over 25 years. Trek Safaris is proud to partner with H&H to promote this exciting new property that will revolutionize the upscale shooting market for many years to come. It is through their experiences of owning and operating four other deluxe lodges in Cordoba that inspired them to create this wonderful new masterpiece.

The Hunting: It is estimated that there are over 35 million eared dove in the Cordoba Province and climbing. Due to it's rich agriculture and lack of natural predators, the dove here are actually a pest to the farmers and the general populace so hunters are a welcome sight to the region. It is doubtful you will ever encounter so many dove in a single moment, hour or day than what you will see here in the Piquillin trees where the eared dove roosts. In fact the property

at Guayasbate is actually full of these Piquillin roosts making drives to the fields a matter of minutes in most cases. Unless you request it, you will not shoot the same field twice. Hunting season is year round and we are offering three and four day hunts.

The Accommodations: Guayasbate is 18,000 square feet of pure luxury with ten expertly appointed rooms that allow group sizes to be small and intimate with single rooms or double up for as much fun as you wish. The exterior design of local Mora rock and Quebracho hardwoods, contrasts smartly with the magic of one of the best interior designers in Buenos Aires who left her touches of contemporary patterns of leather, tapestries and local artifacts throughout the lodge. With huge windows and doors framed in beautiful Quebracho, the sunlight is your friend in most areas of the lodge and highlights the cleanest of looks. So you just want to relax? Well the lodge features an infinity swimming pool with large fold out chairs, two spacious Jacuzzi's (inside and outside), full spa with massage appointments, a library complete with contemporary readings and a custom espresso machine with international coffees. If you like to be inspired by culinary delights, the chef at Guayasbate is one of Buenos Aires finest and will offer both local an international cuisine accompanied by the fine South America reds and whites in the lodge's cellar. No matter weather you choose to be outside in one of the

well-furnished verandas taking in the sunset, or inside on a cool day soaking up the warmth of the huge stone fireplace, Guayasbate is the ultimate comfort.

The Trip: The best way to reach Guayasbate is to fly into Santiago Chile and transfer for a flight across the Andes into Cordoba International Airport where the staff from Guayasbate will meet the group and clear immigrations and customs before taking the 90-minute drive north to the lodge. You can also inquire about the all-new direct flight from Miami to Cordoba on Saturday and Sundays. Others may want to arrive in Buenos Aires and spend a few days touring this vibrant city which Trek can help arrange.

Argentina - Malalcue Lodge

Duck, Dove, Pigeon & Perdiz... What Else Do You Need?

Considering the volume and variety of birds to hunt in Argentina, it only makes sense to experience as much as possible on your trip. Malalcue Lodge has a long-standing tradition of hosting Trek's mixed bag bird groups, but lately the lodge and program have received a facelift.

The Trip: Sportsman traveling to the Corrientes Region of Argentina will take an overnight flight from the US landing in Buenos Aires. A Trek rep will meet you and assist your group when arriving then transfer you to the domestic airport for the flight to Santa Fe. Ariel Semenov will meet you in Santa Fe and drive you to the Malalcue Lodge, stopping on the way for an afternoon dove hunt. The following three or four days are full hunting days. On your last day you will shoot in the morning only, and then transfer back to Santa Fe and fly to Buenos Aires connecting with your flight home. Guest may also elect to reserve a private charter, which Trek will be happy to assist with all arrangements.

The Shooting: While other mixed bag outfitters

use several different lodges all hours apart, Malalcue gives hunters the ability to shoot duck, dove, perdiz and pigeon all out of the same lodge day after day. In recent years, the pigeon population around the Corrientes Region has thrived due to the increase and expansion of agricultural practices allowing Trek to now offer two full days of pigeon hunting, practically unheard of on a mixed bag program. The decoying pigeon hunts will be built around the ever-popular Perdiz flushed by pointers and spaniels along with morning hunts for ducks. This area of Argentina is a migratory interstate for a variety of South American duck species and from May through August, one of the most populated. Doves are shot mostly in roost areas and quite possibly the most fun of all the species we hunt. You'll see these fast birds buzzing through trees and only giving you a split-second to squeeze off several shots, but still expect to shoot 500+ rounds in an afternoon. The beauty of Malalcue is you do not lose hunting days by traveling around Argentina searching for each species; just relax and enjoy the hunting. For 2016, we have incorporated a new three full and two

half-day option for those looking for a shorter travel period.

The Accommodations: With the growing popularity of super lodges around Argentina these days, Malalcue is standing by its charm and culture as many hunters still enjoy the feeling of being at a hunting lodge and not resort. Outfitter Ariel Semenov has made many changes to provide the comforts of these "resorts" without losing the character of Malalcue. The lodge has six deluxe rooms with new bedding, five remodeled bathrooms, a brand-new massage room and spa, along with re-designed porch and foyer to enjoy that cocktail and cigar. Excellent cuisine, impeccable service and instant camaraderie are all the more reason to visit Malalcue Lodge.

TRIP FEE: \$4,670/hunter (4 day)... \$5370.00/hunter (5 day)... based on double occupancy.

Spain - Estancia Pinos Altos

Experience the Royal Treatment.

Trek Safaris has reserved two of the best dates of the season at Estancia Pinos Altos in Spain for fantastic Red-Legged Partridge shooting. Pinos Altos is legendary for their hunting program catering to Americans and has been Trek's destination of choice for 14 years running.

The Trip: After a your arrival and gun clearance in Madrid, most prefer to spend a night in this great city before getting to Pinos Altos. The next day you will be transferred by Pinos Altos staff to the hacienda located two hours south of Madrid near Ciudad Real. Pinos Altos is a restored 16th century home set in the famed La Mancha region. It sits in the middle of 10,000 acres where Red and Fallow Deer and Mouflon Sheep roam. After a nice welcome dinner, hunters will receive instructions for the next three days shooting and non-hunters will devise their plans for tours and shopping. The last involves a transfer back to Madrid and your flight home.

The Accommodations: The hacienda is large with 14 bedrooms, all with private bath, two living rooms, private dining room, patio and

porch overlooking the property. All bedrooms are deluxe and tastefully decorated. Our shooting party will have the entire hacienda. We stress that this is a high quality trip and we're shooting one of the best estates in Spain. Many well-known driven partridge hunters make a yearly trip to shoot with Fernando and enjoy the ambiance of Pinos Altos that include delicious meals, fine Rioja wines and excellent service.

The Hunting: Each hunting day starts with an 8:30 AM breakfast and then set out for the shoot. It's about a 20-minute drive to the most shooting areas where you will draw pegs. Each day will consist of 4-5 drives depending on shooting conditions and consists of an allotted total of 600 partridge for the line of eight guns. You'll have two drives in the morning followed by a delicious field snack and then two more drives followed by a huge elegant lunch. Each hunter has their own loader and a secretary to carry your shells, shotguns, set up your blind, etc. Your only job is to shoot! A line of beaters—generally 40-50, will push the partridge over the shooters at their assigned pegs set about 15-30

yards down the crest of a hill. The birds will come flying fast and quick over the hill and the shooting is fast and furious. A good shot can expect to spend three to four shells per partridge. There's time for a shower and some rest before dinner. These are special affairs with traditional meals and an elegance depicting an era gone by, yet still here. Other Activities: Among the non-shooting activities will be a trip to Toledo, and visits to nearby typical haciendas, small villages and historical points. You may also choose to go shopping for leather goods, porcelain, ceramics, pottery and local wines.

TRIP FEE: \$14,500 per hunter and \$1,400 for the non-hunter, based on double occupancy.

The trip fees are based on a line minimum of eight guns and 600 birds a day.

Eastern Europe has quickly become very popular for those who wish to have a professional driven pheasant hunt and see a part of the world that was once behind the Iron Curtain. Trek is very happy to once again be hosted by Ben Mekié and Peter Oremusz who have formed the reputable Shooting in Slovakia outfit. With Europe having transparent borders it is easy to combine some great tours after your hunt, so please ask Trek about these when booking your trip.

The Hunting: Trek has reserved three outstanding Estates for driven pheasant shooting. Names like Pata, Bajc, Hrablé and others are all top class

operations and establish a style of shooting that may be catered to each group, some with very high birds and some not as. For this hunt we have contracted 200 birds per hunter over the three days, which can be achieved without difficulty. Each day the Estate will arrange five to six drives to pre-assigned stands using beaters, dogs and the traditional horn blows signaling the start and end of each drive. The best time to go is the fall months before winter sets in.

The Trip: Our reserved date is November 1-6, 2017 where each hunter will need to arrive into either Budapest or Vienna, met by Oremusz who will clear your guns and then transfer to

Chateau Bela (2-2.5 hours by highway). Mekié will be on hand to introduce you to Bela and staff followed by discussion about the next three days hunting. Each of the three days you will depart the Chateau around 8:00 AM for the 20-40 minute drives to the shooting estates. The last day you will transfer back to either Budapest or Vienna for your

flight home or extend your trip for time touring. **The Accommodations:** Chateau Bela is the difference maker on this hunt above all others in this region; it has history and culture yet recently renovated to add some modern day features. Bela has 42 rooms with private baths, and all the conveniences of a deluxe property. We will eat in a different dining room each night offering a unique theme to the evenings and include some of the wines Bela is famous for producing. Make no mistake about it; Bela adds a wonderful touch to the entire shooting experience. Non-hunters are welcome at Bela and we will be glad to arrange tours to nearby villages as well as a well-organized itinerary.

TRIP FEE: € 7,795.00 per hunter € 1,795.00 per non-hunter based on double occupancy.

South Dakota Pheasant

The Triumvirate of "The Mount Rushmore State."

Trek Safaris is very happy to offer the three best Ring-necked pheasant hunting lodges in South Dakota. Paul Nelson's Farm, Firesteel Creek Lodge and Tumbleweed are all the finest in what they offer and enjoy a high rate of repeat clients, the ultimate gauge of success. All are family owned and operated with an extensive farming background.

Based on comments we have received from many of you, Paul Nelson Farm, Firesteel Creek and Tumbleweed pheasant hunting lodges offer superior hunts, services and accommodations. This not to say that these are the only three, on the contrary you may have your own, but based on our research these are excellent choices. All of these lodges have displayed a level of service, hunting success, accommodations and equipment that rate them as superior.

Paul Nelson Farm: Located just an hour northeast from Pierre, PNF is Essentially, three distinctly different lodges using a footprint of over 45,000 square feet all with single room status. The Main Lodge was initially built in 1992 and through the years of tremendous growth Nelson

continued to expand the Main Lodge to 12 rooms and including a spectacular African room that could very well be the best lounge in South Dakota. In 2001 Paul added the Buffalo Suites of eight large, tastefully decorated suites and the wonderfully deluxe King Lodge of 15 rooms was built in 2006. PNF has over 12,000 acres of prime hunting land and can provide clients

with as much as they wish to hunt. This is a tremendous destination for high-end corporate groups.

Firesteel Creek Lodge: This wonderful ranch is located near the town of Isabel which is east of the Missouri River. Owned and operated by the Lindskov Family since 1934, Firesteel is a still a working ranch with many thousands of acres devoted to farming, cattle and game management. With over 150,000 trees planted and managing cropland exclusively for wildlife, Firesteel not only offers excellent pheasant hunting, but their Hungarian Partridge and Sharp-tail Grouse are an excellent addition to a great program. There are three buildings offering 22 guest rooms and housing 28 lucky hunters.

Food and service is top notch and you simply cannot go wrong with a visit to Firesteel for your group of friends or family.

Tumbleweed Lodge: Of the three lodges we mention here, we have had more history with Tumbleweed and are happy to continue a relationship going back 15 years or more. Don Bollweg and son Michael, along with their wives figured out 30 years ago that they were going to be second to none in the hosting of hunters. This is truly a family business with a relaxing atmosphere that so many enjoy year after year. With 12'000 acres of perfectly balanced crops and shelter where pheasant, grouse and partridge can sustain their growth, Tumbleweed operates quality hunts year after year. It's easy to reach! Tumbleweed as it is only 45 minutes from Pierre.

Patagonia River Ranch

New
Destination

Finally a deluxe ranch for those who love to fish... or not!

Trek has been plying the waters of Patagonia since the 70's and has established great relations with many wonderful lodges and estancias. Well we would like to introduce to you the wonderful and elegant Patagonia River Ranch. It not only delivers a tremendous week-long fishing program, but guests can also enjoy a range of non-angling activities second to none.

Patagonia River Ranch is a world-class fly fishing guest ranch nestled on the banks of the legendary Chimehuin River, ideally located in the center of the seven most productive rivers in Northern Patagonia. This provides guests a unique opportunity to take both Rainbow and Brown trout in up to 6 different rivers during their stay, while unpacking their bags only once. For the non-fishing guest (or the angler needing to give his casting arm a well-deserved rest), the non-fishing activities include horseback riding, mountain biking, hiking in the Andes, cooking classes with the master chef, and day trips to the charming resort town of San Martin or nearby national parks. Their three full-time ranch hostesses accompany our guests on all these non-fishing activities.

The Fishing- The Chimehuin River, which runs through the ranch, is commonly known as the finest trout stream for large fish in Northern Patagonia. The ranch's location, in the center of the most productive 50-mile section of this river, allows guests to float and wade-fish the "home water" from the nearest access point 20 miles upstream, and step off the boat at the end the day 100 yards from the lodge. We also can put in at the ranch to fish the lower section. No other fishing lodge or outfitter has the river location to accomplish this. Aside from the Chimehuin, PRR can also access some of the most famous rivers in the region to include the Caleufu, Collon Cura, Alumine, Malleo, Quemquemtreu and the Quilquihue. PRR has an 8-person professional guide staff that is all native Argentine, and they work exclusively for PRR only. They've grown up fishing the native waters and know these rivers intimately. All guides are bi-lingual and have the unique ability to handle both the novice and expert angler with equal praise and patience.

This includes two chefs and a fully-accredited sommelier, and a wine cellar with the finest wines from Argentina and Chile, L'Occitane bath and body products and 500 thread-count sheets.

*Trip Fee- \$6700.00 per person...

40,000 acres and a River Runs through it!

The magic of Patagonia is perfectly captured in this wonderful estancia that offers some of the world's best brown and rainbow trout fishing minutes from its doorsteps. The Olsen Family continues to enhance what is already one of the premier trout lodges ever created. Whether you have time for a week or a few days, a visit here is a must.

In the late 19th century the European family Olsen settled in the northern Patagonia Region near Junin de los Andes and laid their claim to 40,000 acres in the foothills of the Andes. There were no bridges or roads, only an abominable spirit to survive and the recipient of some incredible fortune. While farming and cattle kept the Olsen's from starving, it was the introduction of trout, Red Deer, hares and boar that eventually made life much easier and laid the groundwork to become the premier trout lodge they are today.

The Fishing- The magical Malleo River tumbles down from its source at nearby Lake Tromen through San Huberto's 40,000 acres creating excellent dry habitat for trout that will challenge expert anglers with trophy sizes over 20 inches and those who just want to catch fish will be

given ample opportunities. And for the last 40 plus years, 12 lucky anglers have casted and caught fish in places along its banks like the Meadows, the Willows and the Red Bridge and many others. Aside from the Malleo, you will also encounter super productive rivers like the Alumine, Chimehuin, Collon Cura as well as Lake Tromen; all teeming with rainbows and browns within a 45 minute drive. The guides you will experience at San Huberto are some of the best in Patagonia and will be your best friend by trip's end. In these Patagonia waters you will worry for nothing, as your guide will have all you need each day on the river.

Accommodations- San Huberto is a split-level lodge with six double rooms and four single rooms allowing for a maximum of 16 guests but only 12 anglers. Belying its age of 45 years with well-timed renovations and additions, it has kept up with today's demand of high quality facilities and what we term rustic elegance. It does not take long to determine you are in a special place, a place that is timeless and will forever be. Whether it is the meals that are grown or raised on property, or the Sunday night asado that is all the rave in the traveling community, your stay at San Huberto will long be remembered. You would be well rewarded to just relax and soak in the beauty of this place, listening to the Malleo or taking a hike where you may stumble on a Red Deer, and the begin to understand why anglers return here year

after year. Those of you who do fish, the lodge will make plans for you to ride horses, visit small towns or have a picnic lunch with your partner.

The Trip- The trip San Huberto starts with a flight arrival from Buenos Aires into Chapelco Airport in San Martin de los Andes, followed by a 45-minute transport to the lodge. After introductions to the staff and meeting your guide, you will be served a hearty lunch and jump in the river for the afternoon hatch. The following five days you and your guide will devise a plan that will make best use of your desires and abilities. The last date you will have time to fish the Malleo one last time before taking your flight back to Buenos Aires. Please note that shorter trips are available with notice.

*Trip Fee- \$4450.00 per angler
Description- Fee includes six nights accommodations and six days guided fishing with all meals/wines and airport transfers in B.A. and Chapelco. Prices based on double occupancy. Brazil - Floating Cabins

Fish with the Best – Away from the Rest

Of all the “bucket-list” destinations Trek offers, a trip to do battle with the aggressive peacock bass in the Amazon is near or at the top of the list. Anticipating a violent hard hitting strike from one of these monsters may be the most thrilling fresh water experience you could ever encounter. Now is your chance to experience this remote new adventure in the upper headwaters where the anglers are few and the peacocks are plentiful.

The Fishing: The black water rivers of Brazil’s Amazon are home to over 2,500 species of fish, the most famous of which is the hard fighting Peacock Bass. These powerful fighters are extremely aggressive producing devastating top water and subsurface action unlike any other freshwater fish in the world. You know you’re fishing for a bruiser when the guide hands you medium-heavy action rod & reel spooled with 80 lb test braided line and a 6” top water lure with several 4/0 treble hooks hanging from it! Trek is offering a chance to set the hook while fishing 6 full days with 7 nights in camp. We’ll be fishing exclusive & private waters designated for only the Cabin anglers that have allowed us to manage the amount of fishing pressure on a given area greatly enhancing the numbers and quality of Peacock Bass available to anglers. You will wake up each morning at 5:30 am for breakfast and then leave for the day’s fishing with an experienced native guide in one of our custom built 20’ all welded aluminum bass boats, returning around 5:00 pm for a dip in the river or a shower, hors d’oeuvres and dinner at 7:00 pm. You can then spend some time enjoying the sounds of the rainforest and telling stories about the day’s adventure.

The Cabins: Through the years, Trek has utilized various methods of accessing the tremendous fishery known as the Amazon Basin; from mother ships to land based yachts, but nothing

can match the Floating Cabin experience. We have taken this a step further by contracting a new and upgraded Single Occupancy Camp. Forget the need to share a small space with your buddy, as each fisherman will have their own air-conditioned cabin complete with queen bed and personal bath. Each cabin is 12ft wide by 15ft long complete with queen bed, a/c, and bathroom with shower, hot water and storage areas for your clothes and equipment. We have a large dining cabin with a/c where each group will enjoy meals of fish, pasta, meats and salads. The cabins will be located on private tributaries offering exclusive fishing access for guests while taking a maximum of only six anglers on each date. To top this off, ALL tackle (rods, reels and lures) will be included in the trip fee so the saying “show up and fish” literally applies for this adventure.

The Trip: Upon landing in Manaus, Brazil, you will be meet by a Trek rep and taken to the Cesar Business Hotel for the night. The next morning we will take a private charter to a designated airstrip and board a fast boat to camp. This afternoon you will fish followed by either 4 full or 6 full days fishing. The final morning we will take the boat back to the airstrip and charter to Manaus to board your flight back home or check into your day room at the Cesar departing this evening.

TRIP FEE: \$4,990/angler (4 day’s fishing) - \$5,990/angler (6 day’s fishing)

DESCRIPTION: Includes either 4 full OR 6 full days guided fishing (two anglers per boat) with overnights in single occupancy cabins, meals, drinks & bar while in camp, all fishing tackle (rods, reels, lures), transfers to/from camp via charter flight & speed boat, single occupancy hotel room in Manaus on arrival day & day room when departing, transfers associated with program in Manaus. Bolivia - Cano Negro Lodge

Plenty of Peacocks in the Jungle

Bolivia has become one of our top dove hunting destinations and now we have a truly incredible fishing operation as well in the Caño Negro Lodge. The fishing is phenomenal as you can catch literally 100 peacocks a day as well as the toothy Payara and numerous other exotic Amazonian species.

The Trip: Although airfare is not included in the trip fee, most folks originate in Miami with an overnight American Airlines flight to Santa Cruz, Bolivia. Upon arrival, you will met and assisted through customs before being transferred to the domestic airport for your private three hour charter flight to the Caño Negro Lodge, arriving in time for lunch and to get settled in before your first afternoon of fishing. The following three days will be full fishing days, returning to the lodge everyday at noon for lunch and siesta if you wish, before heading out to fish the remainder of the day. The last day you will fish till mid morning and return to Santa Cruz where you will over night in order to catch your 9:00am non stop flight back to Miami the following morning.

The Lodge: Caño Negro Lodge is owned and operated by Roberto Aponte. Jorge Molina, the

owner of Las Palomas Lodge, has now become a partner in the lodge and brought with him new, larger generators and air-conditioning as well as his high standards so now Caño Negro will compete with any lodge in the Amazon Jungles of South America. The lodge will only take eight anglers at a time so space will be very limited as the season is from August through November. Book your date early as the fishing should be excellent in this little piece of heaven in the jungle.

The Fishing: The Amazon and Mata Grosso rivers originate in the Beni region of Bolivia and the Itenez River is one of the main head waters that form these two giant ecosystems. Not only will you catch lots of ferocious peacocks but you should also catch the toothy Payara, Pacu, Oscars, Piranhas and other species that you will have never heard of before not to mention several

varieties of Amazon catfish! The Caño Negro lodge is literally translated to "Black Branch" as in the black branch of the Itenez river. The water has lots of tannin from the jungle in it, giving it its dark tea colored appearance. The fishing is excellent for bait casting, spinning or even fly fishing so whatever your passion, Caño Negro has you covered. We will also maintain a good selection of tackle from rods and reels to terminal tackle such as spoons and lures but it is always advisable to try and bring a few of your own if nothing else to try something different.

TRIP FEE: \$3,995 per angler, based on groups of 4, due to charter flights involved. Trip fee excludes international airfare, and final nights accommodations in Santa Cruz, but is to include in country charter flights...4 nights accommodations with meals and bar at Cano Negro Lodge...3 full and 2 partial days of fishing. All licenses and permits.

DESCRIPTION: Includes three nights full board accommodations at the Caño Negro Lodge, three full and two partial days of fishing including licenses and permits, roundtrip charter to and from the lodge and you last night at the Los Tajibos Hotel. A 50% non-refundable deposit is required to confirm your reservation. SEASON: August through November. DATES: Call Trek for current availability.

A Cuban Paradise on the Fly

Trek Safaris continues our relationship with Avalon Fishing Centers now offering a new Cuban destination the entire family can enjoy. To fish or not to fish no longer has to be a question, do both in Cayo Largo!

Avalon has been the dominant fishing outfitter in Cuba for 23 years and has by far the most experienced and successful programs in Cuba. Since 2008, Avalon has controlled the fishery of Cayo Largo and in this short time, it has become a paradise that both fishermen and non-fisherman can enjoy.

The Fishing: Cayo Largo offers anglers the unique ability to fish in a completely exclusive marine park, free of commercial fishermen, nets or any skiffs or yachts from other companies. Target species are Permit, Bonefish (large ones), Tarpon, Jack Crevalle, Barracudas, Mutton Snapper, and Snook. Guides are excellent and pole you around in comfortable & stable Dolphin Super Skiffs with 60-70 horse motors. Peak fishing season is from February to

June, when all species are present in the area including Tarpon, bones, permit and jacks. Based on the experience and great fishing results in this area, we continue to protect this delicate environment therefore have decided to designate Cayo Largo a fly fishing only destination. Trek will be launching a shorter option to include only 4 days fishing, so please inquire about this if interested in Cayo Largo.

The Trip: This trip starts on a Friday with your arrival into Havana where you will be met by an Avalon representative, transferred to your hotel and enjoy a night in Havana. The next day you will depart the hotel early morning and head to the domestic airport to board a short 30-minute flight to Cayo Largo. You will be met by an Avalon representative and taken to Hotel Sol Cayo Largo and have time to fish the rest of the afternoon followed by five additional full days of fishing in Cayo Largo. The last day you will catch a flight back to Havana and either connect with a flight back to the US (time permitting) or overnight this evening. Trek will be happy to arrange an extra day or two in Havana to explore the city and surrounding areas.

A Place Where Records Are Set.

Join Trek February through March for some of the most awesome Sail fishing in the world. Looking to land a monster over 130 pounds? Wanting to raise over 30 per boat? Then this is your place!!! The beauty of this destination plus the remarkable fishing and lodging infrastructure, make Pacific Fins Resort & Marina a can't miss opportunity.

This was an outstanding trip. The fishing, lodging, food and service was exceptional.

We caught and released 34 sailfish the first day, some over 150 lbs. We caught and put in the frying pan yellow fin tuna and El Dorado. We did not hook a Marlin, but the other boat did. All in all a very good trip. I would recommend it.

Jim Elroy

Your trip begins upon arrival into Guatemala City. After clearing customs and immigrations you will be met and transferred by air conditioned van 90 minutes to the Pacific Fins Resort, the remainder of today at leisure. The following three days will be full fishing days with lunch, drinks and tackle on board. The morning of the final day, you will get packed up and be transferred back to Guatemala City and your scheduled international departure. Other times of the season you will be transferred to the nearby marina to board your charter.

The Fishing: The waters off the southern Pacific coast of Guatemala are considered the premier fishing grounds for Pacific sails. These acrobatic

fighters normally run in the 90-110 pound range, but do not be surprised if you hook into couple over 130 pounds. During peak season, daily sailfish raises can easily top 30 per boat. Although the primary game here is sailfish, you will also encounter large schools of dorado and a pretty good mix of tuna, the smaller skip jack as well as the big yellow fin.

Although not here in big numbers, marlin do show up on occasion, with Trek anglers in the past reporting blues up to 700 pounds! Mexico - Grand Slam Lodge

Knock it out of the park at GSL... Paradise found!!

If you find yourself looking for a deluxe property offering great flats fishing this year, we have got just the place and it is aptly called Grand Slam Lodge. Here you have the opportunity to take snook, tarpon, bonefish and giant permit right out the front door along Mexico's Mayan Riviera. Fantastic trip for a great price.

The owners of the Karisma Hotel Group, who include in their portfolio some of the most deluxe resorts in the Yucatan, decided to open a five star fly fishing lodge and have recruited Trek to get the word out. We of course have done our homework and give it our seal of approval and we think you will too.

The Trip: The nice thing about Grand Slam is that you can arrive any day of the week and stay as short as three nights or as long as seven. You need only to arrange your flight into Cancun where you will be met to make the two-hour ground, and one-hour boat transfer south along the coast to the lodge. The last hour is a beautiful cruise through Sian Ka'an Biosphere Reserve that ends at Grand Slam. Each

morning your local guide will be equipped and ready to go by 8:00AM and back in time for a shower and a wonderful dinner. The last day of your trip will be transferred back to Cancun to make your flight home.

The Fishing: GSL general manager Miguel Encalada has put together a team of guides that fits his criteria for showing guests not only some great fishing but a good time as well. Using brand new 20-23 foot Panga skiffs they set out each day in the fabled Ascension Bay and beyond in search of some of the most heart stopping salt species on the planet. Small tarpon cruise the small canals, teeming bonefish feed with their tails glistening on the numerous flats, snook lay in the shadows of mangroves and giant permit roam in between. It is not uncommon to land this grand

slam of light tackle angling in a single day. The two best assets of GSL are that you can take fish on fly rod or spinning rod and there is always a lee side.

Accommodations: Grand Slam offers six villas beachfront villas with balconies and incredible views, and rooms with king size beds, 42 inch flat screen TV's with satellite, I-pod docking station and beautifully designed Caribbean style furnishings. A Big Bass Paradise.

Trek Safaris and Bill Chapman Jr. have once again joined forces to guide you to the biggest largemouth bass of your life. With a ten-month season on Lake El Salto, we can literally get you hooked up almost year round!

Trek and Angler's Inn at El Salto are happy to welcome you to the premier bass fishery in the world. More than 20 years ago the Florida-strain largemouth were introduced into this beautiful body of water and to say they have flourished would be an understatement..

The Trip: Your trip begins upon landing in the city of Mazatlan where a driver from Angler's Inn lodge will transport your group in a comfortable van, loaded with cold drinks, to the lodge only 1.5 hours away. The city of Mazatlan itself is a top tourist destination for travelers seeking beautiful beaches in a relaxed setting. Most airline arrivals come from a connection through Mexico City, which is easily reached from most major U.S. cities.

The Accommodations: Angler's Inn Lodge sits just steps away from Lake El Salto and is unlike anything you would imagine in the Mexican Sierra Madres. The lodge amenities include air conditioned rooms with private baths, daily laundry service, satellite TV, and internet service for those who like to stay connected. This lodge was constructed with not only anglers in mind but their children and spouses as well. From husband and wives to corporate groups Angler's Inn delivers.

The Fishing: A typical day on the water at El Salto is an eight hour fishing day with lunch and siesta at the lodge. Whether you like to throw crank baits or flip a jig in wooded cover, your guide will put you on the fish, period. Most anglers use this trip to El Salto to try a new technique that is not typically used on their home lake. You will be fishing from Tracker boats with Yamaha outboards, providing the right mix of stealth and speed to optimize your fishing experience. For those anglers who do not want to travel with rods the lodge does have tackle to rent as well as a tackle shop for anything you may need.

"Lake El Salto is the best trophy lake in the world... period! You won't find a better place to catch a ten-pound plus largemouth anywhere. Add a beautiful hacienda-style lodge, a friendly, professional staff, comfortable rooms and you've discovered Anglers Inn. First-class fishing, first-class food, first-class service.

Bahamas is Still The Spot for Big Bones.

Abaco Lodge and Bairs Lodge offer the best flats fishing, superior equipment, finest accommodations and gourmet food so why consider anywhere else. Excellent dates available on Abaco and Andros Island, the two best fishing islands in the Bahamas. Charter and commercial flights available.

ABACO LODGE

The Trip: To reach Abaco Lodge you need only to arrive at Marsh Harbour Airport where in minutes you will be whisked to the lodge. Call the Trek office for assistance in arranging your flights into the Abacos.

The Accommodations: Abaco Lodge will house eight anglers in single room, air conditioned suites

located on the Marls side of the Abacos between Marsh Harbour and Treasure Cay. Amenities include a well stocked bar, dining room, swimming pool and incredible views of the setting sun.

The Fishing: Using Dolphin Skiffs and 4-stroke technology, the best guides on the island will rotate your visits to include the short runs to the Marls that hold undetermined schools of bones from 2-6 pounds and pairs of fish to double digits. And cruise or trailer boats to the outer cays on the ocean and bay sides. The idea in the Marls is to be well positioned especially on the outgoing tides when the fish come out of the mangrove and into small creeks that become a bonefish highway. Some larger pairs of fish can be seen and stalked by either poling the flats and creeks or by wading. In addition to bonefish you will also have chances at permit and small tarpon.

BAIR'S LODGE

The Trip: The lodge is located right on the beach on the east side of Andros just south of Congo Town.

The Accommodations: Anyone who has fished South Andros the last 15 years or so has heard of Bair's Lodge. Originally owned and operated by Stanley and Andy Bair, they took a beautiful small cottage on the ocean and turned it into one of the most popular bone fishing lodges in the Bahamas. The Bair's sold their little operation back in 2003

to an Argentine company which operates some of the very best fly fishing lodges in the world, today as always, Bair's Lodge is tops for Bone fishing.

The Fishing: Bair's is taking a maximum of 12 anglers recognizing the vast potential of the South Andros fishery. Places like Deep Creek, Little Creek and Curly Cays are well known to the stable of great guides at Bair's. The best thing about Bair's is that you always have a place to fish, because you can run in the creeks in bad weather or cruise south to stupid fish on calm days. Bair's has recently purchased new 18 foot Dolphin Skiff with new Mercury Motors that will allow anglers to reach their favorite flats quicker.

TRIP FEE: Bair's Lodge \$ 3,895 per person (March-June) and \$ 3,450 per person for (October-March). Abaco's \$ 3,895 per person for (March-June) and \$ 3,450 per person for (October -March).

No bucket list is complete without a visit to Alaska...

Alaska is truly “the last frontier” and in this issue we are featuring three of our favorites lodges, Rainbow River, Kulik River, and Iliamna River. Each of these lodges has earned a measure of respect from Trek and its many repeat guests. Whether you wish to wade, float, or fly out everyone will catch plenty of salmon, trout, grayling and char... if the bears will let you!

Rainbow River Lodge: The success of any fishing operation relies on three key factors; location, location and location. Of course, you must have a great staff and incredible surroundings to compliment your GPS coordinates and Rainbow Bay has that and more. Owner/operator Chad Hewitt has developed what was once a good lodge into a great facility that utilizes one of the best assets in Alaska, the infamous Copper River. Anglers the world over have come to the Copper to taste the honey that is one fantastic battle after another for rainbow trout in the 30 inch range and it's a Tiger Woods drive and edge away from your cabin door. Not only will you experience tremendous fishing on the Copper, but also you will be flown to the area's best trout and salmon waters within reach of their DeHavilland Beaver float planes. The lodge has beautiful new outside cabins with wonderful wood interior and a common dining and lounge area affording spectacular views.

Iliamna River Lodge- This is a new property that fulfills a unique void between high-end fly out lodges and a productive home waters operation. Located on the banks of the pristine Iliamna River, the Iliamna River Lodge will surpass all expectations of what an Alaskan wilderness lodge views, secluded accommodations, and unmatched service, you'll find everything you need to experience the fly fishing adventure of a lifetime. The lodge is sitting in not only the heart of Alaska's best fishing area, it is also surrounded by breath-taking Alaskan scenery. Nestled among pines overlooking the Iliamna River where our float planes land and take off, the lodge gives our guests easy access to fabled local waters to fish for Trout, Salmon, and Char. Our newly built spacious cabins are appointed with efficient heating, walk-in showers, and a front porch that offers fantastic views of nearby peaks and the Iliamna River. A group of eight gets exclusive use of Iliamna River Lodge where owner Bill Betts makes sure you experience the real Alaska.

overlooking the Kulik River. Salmon, rainbow trout, Arctic Char, grayling and lake trout are available within 100 miles of the lodge using very affordable optional fly-outs. If you like game viewing there will be ample opportunities to see bear, moose, caribou, eagles and beaver. Kulik offers one of the most complete fishing packages in the industry.

Kulik River Lodge: Located in the famous Bristol Bay watershed, Kulik is part of the Katmailand umbrella of fine Alaskan Lodges. Well known for their network of planes, service and the only lodgings allowed in Katmai National Park, Kulik offers not only terrific fishing but also incredible views of the volcanoes, glaciers and multi-colored tundra of the Aleutian Range from your native spruce cabin

Cuba Touring & Flights

Since last January, Trek has arranged hundreds of trips into Cuba involving a combination of some time in Havana along with some fishing near the Bay of Pigs. The program has been well received and continues to grow. However with the start of commercial flight service into Havana by most all U.S. carriers, we have designed some a touring only package that is legal, fun and easy to book.

There are now direct service into Havana from ports such as LAX, Atlanta, JFK, Charlotte, Orlando, Tampa, Ft. Lauderdale, Newark, Houston and of course Miami. These flights

and their prospective connections have made it much easier to book that quick getaway or long weekend to Havana and nearby sights. Using our experience and local connections, we have packaged both a four night and three night package that include one of the top-flight hotels in Havana. Not an easy task but we have tackled it head on.

Some of the highlights of the four-night guided tour are stops at Plaza de la Catedral, Plaza de Armas, Plaza San Francisco de Asis and the Plaza Vieja. Other iconic sights on the walk may include the Museo de la Revolucion, the Capitolio building, Gran Teatro, Bacardi building, Art Museum, and Calle Obispo. We will also see a Cigar Factory where you will learn about the history of cigar production and the rolling process. From

here you will continue to the Callejon de Hamel neighborhood which has been converted into a cultural center rich in Afro-Cuban religion, art and dance. This is a great opportunity to learn about the culture and enjoy a folkloric dance performance. Your next stop is a visit to Ernest Hemingway's Cuban home turned Museum - Finca Vigía and the surrounding Cojimar fishing village, which he used as the backdrop for his famous novel Old Man and the Sea. For many, classic cars are synonymous with Cuba and you'll get a first hand experience riding in a classic 1950's car on a 2 hour tour of Havana's neighborhoods. Cruise the streets of Miramar (an upscale suburb home to old colonial houses, foreign embassies and diplomatic residences, Vedado (a waterfront suburb home to many national landmarks), and Centro Havana (a working-class neighborhood). You will also see the U.S. Embassy, Colon Cemetery, the Capitolio, and Anti Imperialist Square.

Our last touring days will be a visit to the city of Matanzas, the capital of the province that bears the same name. Home to five bridges, numerous poets and neoclassical buildings which have led many to nickname it the Athens or Venice of Cuba. Explore this city of artists and intellectuals that keep its traditional culture thriving. Another attraction that Cuban keep hidden are its beaches or more specifically, for Varadero Beach, made famous by hedonists, like Al Capone, before the Revolution, it is now the "it" destination of those seeking a beach get away at an all-inclusive hotel. The beach is widely considered the best in all of Cuba, stretching nearly 15 miles along the Hicacos Peninsula. Soak up some sun and sand this afternoon with local and international holiday-makers.

Along with these tours we have selected some excellent local restaurants that offer fine Cuban and International cuisine, wonderful views and nightlife. Our hotels will be either the Nacional or Parque Central, both are considered some of the best hotels in Havana and our contacts have a knack of getting rooms there. Both are well located and in pedestrian friendly areas with lost of clubs, restaurants and nightlife nearby.

We emphasize that these tours meet both the Cuban and U.S. government's approval and we packages and instructions are easy and simple to follow we have found that our clients really are at ease booking these trips and the demand is exceedingly high. Our groups are a small, as little two and a maximum of 12. All you need to do is pick a date, give us a call and we'll do the rest. What are you waiting for, give us a call and see Cuba before the U.S. invasion gets too crowded.

New Pigeon Hunting Destination

It seems the decoying pigeon has captured the attention of most international bird hunting enthusiast and because of this, if NASA came out saying they have seen pigeons on the moon, well, Milton better get the checkbook out because Trek would figure a way to go scout them. In all seriousness, the pigeon craze has been going on for some time now, but over the last few years, it has reached new heights.

After many hours of research, testimonials from mutual clients and a first-hand visit, Trek is excited to introduce Pigeon Palace in the Santa Cruz province of Bolivia. It's here that millions of pigeons arrive each April to feed on the thousands of acres of soybeans, corn, sunflowers and sorghum farmed by Mennonites. Outfitter Mozo Vidal lends his knowledge from years of working beside hunting pioneer Herland Von Sneidern to deliver

incredible high-volume decoying pigeon hunts.

Located about 3 hours West of Santa Cruz near the small town of San Jose de Chiquitos, Pigeon Palace is a spacious 5-bedroom lodge all having en suite bathrooms, A/C and maximum capacity for 10 hunters. There is a large great room with bar, fireplace, dining area and several comfortable seating corners allowing guys to stretch out and enjoy themselves. During the hot days of the season, hunters can enjoy the swimming pool at the center of the grounds. Mozo's wife Vicky is responsible for the kitchen preparing typical Bolivian meals of pork, beef, pasta and deserts. Having only 5 years of age, the lodge has matured nicely and perfectly located with drives to the fields between 20 and 50 minutes.

This is a program we urge you to try as in the coming seasons, space will be hard to find once Pigeon Palace is on the forefront of decoying pigeon hunting. You can see more details on page 8 of this newsletter.

Mexico's Red Hot Combo

It is pretty easy for Trek to paint a picture of the duck and quail program in San Fernando Mexico. Whether it be targeting ducks or quail, its like nothing you've seen before unless of course you've visited the La Finca Lodge. For those of you that haven't, well allow me to get out the paintbrush!

Imagine walking through a field, you have your Beretta and a shell pouch filled to the brim. You take five steps and a covey of 10 quail flush at your feet. You take a few shots and drop a couple, but then it just keeps happening again and again covey after covey. You think to yourself, wow I was

expecting to jump a few coveys here and there, but really at the end of the hunt you've jumped 15 to 20 coveys and your shell pouch has been refilled three times! This is what you can expect on a typical quail hunt in Mexico.

Combined with a successful quail hunt, we also give you the chance to hunt decoying red heads and pintails on the Laguna

Madre. It is here that 80% of migrating redheads and a ridiculous amount of pintails winter each year. After a short airboat ride to the blind, the decoys are being put out and what do you know, red heads cupped up, feet down, start putting in while the decoys are still being tossed! The next thing you hear is "shoot shoot shoot", and it begins. Wave after wave of Red heads pour in to the

decoys in massive flocks. Although red heads are there in full force, there are a lot of other ducks that thrive in the area including Pintails, Wigeon, Teal, Mottles, Shovelers, Buffleheads, and Blue Bills. At the end of the hunt the bird boys start to pick up birds and you start to realize how many floating decoys are not actual decoys! You jump back in to the boat that seems a lot heavier than when you got there and its off to the dock for a short drive back to La Finca and a much deserved dinner. For more information refer to page 20. Call Trek Today to reserve space at La Finca and see this picture in person.
