OUTFITTERS

A different Dove Shooting experience

About Us

H & H Outfitters, owned and operated by Alex and Zeke Hayes, have spent over 20 years exceeding their client's expectations and developing a reputation as the finest in the business. H & H Outfitters own and control over 20,000 acres of the best land in the heart of the prime roosting areas in Argentina. In addition, we plant crops exclusively for Doves on our land and use no-till methods which provide consistent and unlimited amounts of food. By practicing these game management techniques, we are the only Outfitter in the area that offers excellent shooting throughout the entire year.

Agriculture is very strong in our area and there are many fields of Corn and Sunflower nestled around Rio Seco. The ranch is privileged to have a very large dove roost within 25 minutes. Rio Seco is a 5,000 acre property owned jointly by Hayes and Hayes Outfitters and the Graham family of Dublin, Georgia. The lodge has been in operation since 1998 and boasts 6 comfortable bedrooms with private baths and central air conditioning. In total 10 shooters can comfortably enjoy the facilities at any given time. Tiled terraces, shady trees and fine European cuisine add to the luxurious ambiance of this majestic retreat. Rio Seco is always open, as Dove season runs year round.

Let the Birds come to You

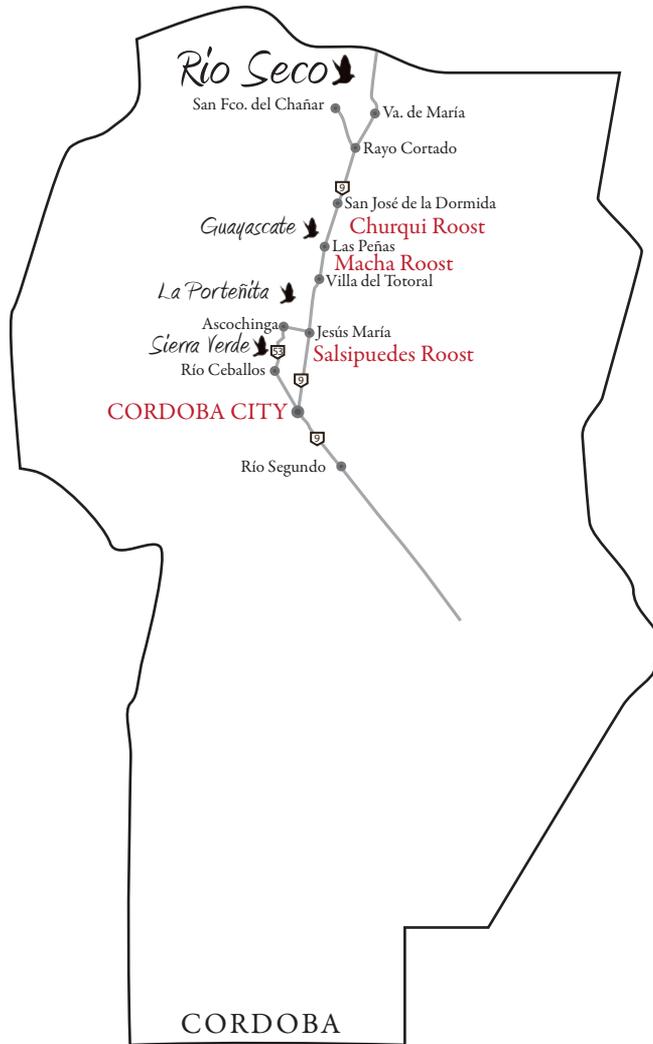

Location

AMERICAN CONTINENT

ARGENTINA

The Lodge is located 2 hours by paved road
from Cordoba's International Airport.
