# CORDOBA

**What's New**— Direct American Airlines flights from the U.S. to Cordoba and caravan charter service to select lodges now allows Trek to get you faster to the field than ever before. By taking the direct flight, it is now also easier than ever to bring your own gun to Argentina. The future is looking as bright for dove hunting in Cordoba, as Argentina is coming out of its worst drought in a century and this year's harvest is expected to be longer than any in recent years.

**Available Dates**— We have a few fall openings in Cordoba, as well as availability in our Merlo program, which will run during Cordoba's season pause in Nov/Dec. There has been high demand for 2020 dates as well, so please call 1.800.654.9915 or email [trek@treksafaris.com](mailto:trek@treksafaris.com) for availability.

**Price**— \$2,100-\$3,900/hunter

# AMAZON SAFARI CAMPS

**What's New**— We are coming off one of our best Amazon fishing seasons on record, with anglers from our mobile Upper Jafari safari camps landing numerous peacocks in the 20 lbs.-plus range. The single occupancy mobile cabins have been a huge success among Trek clients, delivering anglers deep into less pressured areas while providing many of the comforts of a conventional lodge. Trek is also organizing a rare exploratory peacock bass fishing expedition this fall into the relatively untouched waters of Brazil's Rio Preto.

**Available Dates**— Upper Jafari: November 15-25 (5 days fishing), November 23 – December 2 (5 days fishing), December 9-16 (4 days fishing), December 14-21 (5 days fishing); Preto: Call for availability

**Price**— \$4,995-\$5,995/angler

# NICARAGUA

**What's New**— The one-year anniversary of Nicaragua's protests passed with little fanfare, and our partners in the country are gearing up for another banner duck hunting season. Many Trek clients have called this adventure the duck hunting trip of a lifetime, owing to the massive numbers of birds and pristine setting or our operation here. Our Nicaragua all duck pre-sale was such a big hit last year, Trek and its partners have agreed to bring it back for an encore in 2019. On a first-come, first-serve basis, we are again offering the option for six duck hunts over three days to our clients at the incredible price below.

**Available Dates**— Select dates are available in November and December. Call 1.800.654.9915 or email Kevin Gehm at [kevin@treksafaris.com](mailto:kevin@treksafaris.com) for availability.

**Price**— \$4,195.00/hunter

# COSTA RICA SEAMOUNTS

**What's New**— We are excited to offer a pilot program to deliver you to NEW blue water frontiers off trophy-rich Los Suenos. In locations known only to our captains, strategically placed seamounts reach beneath the water's surface, activating the food chain. Located between 65-150 miles offshore, these seamounts allow you to fish for sailfish, tuna, and marlin, in big numbers, with only the remote possibility of encountering another boat.

**About the adventure**— After an overnight run to the nearest seamount, you'll fish from dawn to dusk. Most opt to fish two to three days, given the length of the fishing day and the unbelievable action you will encounter. After your last day, you'll run back to Los Suenos, where we can arrange extra days for R&R.

**Price**— \$2,975.00/angler, based on a three anglers for two days fishing and one night's accommodations.

# GOLDEN DORADO MOTHERSHIP

**What's New**— This has been an incredible season on the Golden Dorado Mothership, as shown in this [video footage](#) from some of our more recent adventures. The Upper Parana River is one of the few places where the golden dorado fishing is strong all year round. The mothership configuration allows us the mobility to continually explore new areas, as well as deliver you more quality time on the water chasing one of the biggest and baddest freshwater species on earth.

**Available Dates**— October 29-November 5, November 5-14, November 17-23, December 5-10, and December 10-30

**Price**— \$3,500/angler

# GRAND SLAM LODGE

**What's New**— The fishing in Ascension Bay has been on fire this season, with lodge clients landing bigger bonefish in the 4-6 lbs. range. Additionally, our clients have taken advantage of a nice population of Snook, up to 15-20 lbs. Guides have reported schools of 150-plus permit. Permit activity is generally strong well into the fall. Add in a healthy population of resident tarpon, and this fall could provide an outstanding opportunity to achieve a true four-species flats grand slam.

# **WHY WE RECOMMEND TRAVEL INSURANCE**

*Health insurance and credit card insurance often does not completely cover out-of-pocket expenses related to a travel emergency. (for example, a medical evacuation back to the US, which can cost upwards of \$50,000)*

## ***Credit Card Shortfalls***

*Your credit card likely provides some coverage for travel insurance. It's important to check what coverage you actually have as this can vary depending on your card type, and can even cost you additional funds to invoke. Credit card companies often have a number of conditions in order for their insurance to apply. For example, you may have had to pay for the entire trip using that credit card. Travel specific plans offer a much higher level*

***Travel is an Investment***
